“Şişecam Bilim ve Teknoloji Merkezi, İstanbul”
“Sisecam Science and Technology Center, Istanbul”

Safety Comes First

As Paşabahçe, we know the importance of safety when it comes to our daily home and office lives. Therefore we put our highest efforts on developing a wide range of tempered glassware for maximum safety, for superior resistance and durability of our products.

Fully Tempered

Heating the glass up to its melting point followed by a controlled cooling process increases the durability of the glass against shocks and sudden heat changes. Tempering also ensures a safe breakage. Glass shatters into small and safe pieces eliminating the risk of injuries.

Rim Tempered

Concentrating heat on the rim area followed by an instant cooling using special techniques allows us to increase the durability and strength of the rim therefore prevent chipping and early breakages.

Extra Resistant

Our plates and bowls, produced by spinning technology are heat strengthened against thermal shocks and breakages.

Perfect Drinking Experience

One of the biggest challenges and our biggest goals is to achieve the perfect drinking experience for every different kind of spirits and beverages while never compromising safety and durability.

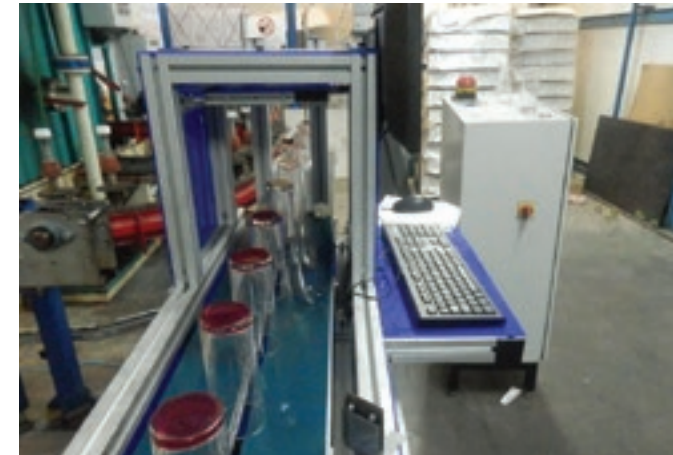

Various techniques applied to rims of the glasses helps us to offer perfect drinking experience.

Laser technology applied to rim areas of glasses enables us to enhance drinking experience as well as to extend the life cycle of glasses exposed to intensive use.

Fully Automated Inspection

Almost all of production lines located in Paşabahçe facilities are inspected by fully automated inspection technologies. Cutting edge technology inspection machines that use sophisticated algorithms help us to detect and eliminate the flaws on body, rims, stems. Advanced color and hue inspection is applied on decorated and colored glassware.

*Paşabahçe Store in Corso Matteotti 3, Milan, opened in April 2015.
It can be indeed considered a glassware paradise. Its 500 sq.m. floor space allows to exhibit an extraordinary selection of glassware and crystal products.
Besides being a prestigious showcase set in the heart of the city, the Store is also a perfect meeting place for chefs and sommeliers.
Moreover, it's a brilliant location for events in collaboration with the nearby prestigious brands located into Milan Fashion District, "Quadrilatero".*

*Milan Warehouse - 10,000 sq. m. warehouse strategically located close to Malpensa Airport and in proximity of A8 and A9 highways.
Domestic and international transport, import/export and internal customs area.
Precise and reliable service is allowed by the use of the latest technologies for moving and storing goods.*

ZESTGLASS

Zestglass

Rethink. Repurpose, Refine.

This is our mantra, our process and our promise. It's why we get up in the morning. It's why we exist. At Zestglass we look at things differently. We take existing glass products and Upcycle them into redefined, relevant and beautiful new solutions for modern kitchens.

Why Upcycle?

Because we believe in 'using what we have'. Upcycling saves resources, time and money. So this simple philosophy isn't only smart design, it's good business. And hey...It's how we roll.

DRINKWARE

The presentation style of beverages influences the pleasure of drinking as much as their consistencies, tastes and aromas. An elegant presentation style first moves the eyes to pleasure, then prepares the palate for the coming taste. Different kinds of beverages find their authentic tastes and meanings in different cups and glasses. While some beverages need a wide mug to express their aromas, others reveal their miracles in a thin glass that widens at the rim. Paşabahçe offers different options that take the drinking pleasure of every kind of beverage to the very summit with its wide product line, ranging from the classic to the innovative and modern.

HOT DRINKS

A freshly brewed cup of tea starting the morning, a piping hot coffee to take away the tiredness of the day, a relaxing and comforting cup of herbal tea full of health... Hot beverages are drunk with pleasure at all times of the day, warming our spirits. With elegant and distinctive presentations, these tastes drift away from normality, transforming into a completely different joy. While coffee proffers an eye-catching presentation by displaying the attractiveness of its foam in a glass cup that in turn displays its own appetizing colors, the steam rising from the surface of a cup of tea increases our appetite. Paşabahçe adds elegance and pleasure to presentations with designs full of joy for every kind of hot beverage.
